

**Enjoy a safe outing.  
Observe these safety tips!**

**Water Hazards**

Boat with caution! Be especially aware of the existence of underwater obstructions. In addition, floating debris may be at or near the lake surface as a result of fluctuating lake levels. Boaters and skiers should be watchful for these hazards; because of these floating and underwater hazards, diving is discouraged.

**Life Jackets**

When boating, the best protection against drowning is to wear your life jacket. U.S. Coast Guard approved life jackets are required if you are less than 13 years of age, a non-swimmer, are on a boat less than 16 feet in length, or are in a canoe or kayak. Know the rules before you go out on the water.

**Alcohol and Boating Don't Mix**

Don't drink while operating a boat. Alcohol is involved in at least 50 percent of all drownings and a major cause of death in recreational boating accidents.

**Alcoholic beverages are prohibited on all Corps of Engineers lake lands and waters!**

**Be alert to changing weather/lake conditions**

Storms can come on very quickly. If lightning is spotted, head for shore immediately and seek out a safe location.

**Hunters**

Hunting is permitted on Corps and adjoining National Forest lands except in developed recreation areas and posted areas. Exercise extreme caution with firearms at all times. The area is used by others throughout the hunting season.

**Cold Weather Activities**

Stay dry, dress in several layers of clothing and wear a hat to conserve body heat. Severe shivering, lack of coordination and confusion are symptoms of hypothermia, a critical condition due to subnormal body temperatures.

**Play it Safe**

Swimmers are encouraged to swim only at designated areas. NEVER SWIM ALONE! Children should remain under close supervision at all times, especially when playing in or around the water.

**Remember...**

The major causes of drowning are insufficient swimming skills, use of alcohol, failure to wear a life jacket, and hypothermia associated with cold water.

**Area Campgrounds**

Tionesta Recreation Area  
Outflow Recreation  
Kellettville

**Firearms and ammunition**

The US Army Corps of Engineers does not honor State-issued concealed weapon permits, prohibits loaded concealed weapons, the possession of loaded firearms or ammunition on lands and waters administered by the US Army Corps of Engineers per 36 C.F.R. § 327.13(a).

Federal rules and regulations concerning the use of this lake are set forth in Title 36, Chapter III, of the Code of Federal Regulations and are on display in public areas of this lake.
